Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Project / Team ID	SWTID-2026-3426
Date	15 March 2026
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

2. Demonstration of Proposed Features

This document captures the features proposed for the automated standard laptop ordering solution and their demonstration status.

S.No	Feature Name	Description	Status	Demonstrated	Remarks
1	Standard Laptop Request	Employee submits a request for a predefined standard laptop.	Implemented	Yes	Core request flow
2	Automated Approval	Flow Designer routes the request to the appropriate approver.	Implemented	Yes	Approval step
3	Order / Fulfillment Trigger	Approved request initiates procurement or fulfillment.	Implemented	Yes	Automated handoff
4	Status & Notifications	Requester receives updates as the request progresses.	Implemented	Yes	Improves visibility
5	Exception Handling	Non-standard or failed requests are routed for manual review.	Partial	Yes	Manual review path
6	Audit / Tracking	Request activity and workflow status remain traceable.	Implemented	Yes	Supports monitoring
