Code-Layout, Readability and Reusability

Date	01 October 2026
Team ID	SWTID-2026-3426
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

The solution uses a structured ServiceNow Flow Designer workflow. Clear naming, modular flow steps, reusable actions and documented conditions make the automation easier to maintain and extend.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed	Remarks
1	Consistent Indentation	Uniform formatting is used for scripts/expressions and configuration.	Yes	Readable flow configuration
2	Proper File Structure	ServiceNow artifacts are logically organized by application/workflow.	Yes	Modules separated by purpose
3	Meaningful Variable Names	Variables and data pills reflect their purpose clearly.	Yes	Request and approval fields are descriptive
4	Function / Method Names	Actions and subflows use descriptive names.	Yes	Easy to identify workflow steps
5	Code Comments	Important logic and configuration are documented.	Yes	Supports maintenance
6	Modular Design	Workflow is divided into validation, approval, fulfillment and notification steps.	Yes	Reusable flow structure
7	No Redundant Code	Duplicate automation logic is avoided.	Yes	Centralized workflow logic
8	Error Handling	Validation and failure paths are handled in the workflow.	Yes	Prevents incomplete processing

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level
1	Request Validation	Flow Designer	Standard laptop request workflow	High
2	Approval Routing	Flow Designer	Procurement approval process	High
3	Notification Actions	ServiceNow Notifications	Request/approval/fulfillment updates	High
4	Fulfillment Task Creation	Flow Designer	IT procurement fulfillment	Medium
5	Audit & Status Tracking	ServiceNow platform	Requests and related tasks	High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Workflow is organized into clear functional stages.
Readability	5	Descriptive names and straightforward flow steps improve readability.
Reusability	4	Validation, approval and notification patterns can be reused for similar requests.
Documentation / Comments	4	Key workflow decisions and configuration should remain documented.
Overall Score	4.5 / 5	Strong structure with scope for further reusable subflows and documentation.
